To be very clear, it is not my responsibility to do the air quality grant reports, but I did for WRPT.

I further want it to be known, I am not always included in the correspondence until brought in by tribe.

I additionally want to note, I was not paid for work done for air grant even though discussions with previous Chairman Sanchez, Kathy Frazier, and EPA staff, \$7000.00 remained in account. I was told WRPT Closed out grant. I have not seen close out documents to confirm such actions.

Cynthia

Hello Everyone,

The file I created for the reports, and which included the past reports was given to Administration when I turned in the reports. I asked Amber yesterday if she had the file. She gave it to Nelletta and Gina.

I did not do a duplicate of all included.

The fact is this... the reports were vague and the knowledge of the past work limited. EPA knows this. My reporting included WRPT being a member of NTAA, Housing doing the NTAA clean air survey, but it really did not include the P10 information since I have little knowledge of this.

I also included the number of vehicles that travel through 95 and 95A, the air quality of the dump is an issue, as well as the possible contaminants of the air fly zone for Schurz.

At the meeting held between staff, my goal was to submit something to EPA. The report submitted for the first quarter after staff left grant apparently is not being acknowledged which is not within my work scope. The grant really needs to reflect current plans. EPA has the historical.

I did the work on my time.

I am sure the file is with someone here at Walker River.

Can I get the last air program grant app and/or wordplan? if you only have paper I can get it when we meet next Friday.

Thanks,

Dietrick
